

Masking Tape MT816

Masking Tape MT816 is a pressure-sensitive tape, Use natural rubber adhesive and creped paper backing, designed for automotive repairs, painting, and high-temp environments up to 150°C. It offers instant adhesion, strong bonding, and excellent masking without bubbling.

Product code	MT 816	Test Method
Backing	Crepe paper	/
Specification	1250mmX1500m	GB/T32370
Color	Yellow	/
Adhesive Type	Rubber	/
Total Thickness (um)	165um±10%um	GB/T7125
Initial Tack	≥12	GB/T4852
180Steel Adhesion (N/25MM)	≥9 N/25mm	GB/T2792
Tensile Strength (N/25MM)	>85N/25mm	GB/T22898
Elongation (%)	>7%	GB/T22898
Cohesion (H/25MM)	≥24H	GB/T4851
Application (°C)	150°C	150°C/40min

Note:1.The above data are measured data, not guaranteed value, for reference only. Users must try out qualified products before they use them.

2.All Testing is performed at temperature 23±2°C and (65±5)%.
